

- A timeline of Events 1867 → 2026 → 2042 → 2226 (56 YEARS)
- Current Political or changes
  - Energy
  - Urban Density
  - Capitalism

  } McConness Speech, Change in technology, Political climate

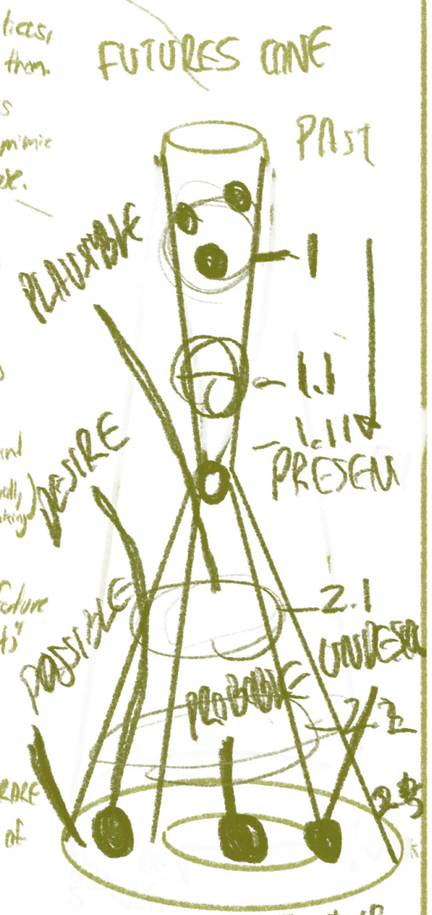

The By Narrative is the creation of Oi the counter to mechanical Ai, and the offspring of the industrials Revolution Oi, is the organic matter symbiosis of total intelligence comp. Adding A layer of symbiosis with tech that does not interfere with the human cognitive enhancing the need of tch working with us not with them. New form of adaptive tech ambient spaces. Mech tech Vs Organic tch

New forms of technology battle the old practices, extracting of raw materials instead of growing them. Eventually as noted in a book, the human is a machine, once we have develop the tech to mimic replicate and control its output, shape and purpose. I agreed with the claims that in +100 year this blurr and this conflict with AI will disappear → Evolve it will be counter → but it be a merge where we will loose the full Human - Organic and start

1. Enhancing our Cognitive thinking & human capabilities
2. Speak Machine behave like machine
3. Our Active environment is an active participant
4. Anything we build can have any Function (conceptually thinking) Hence why early bidding & concepts could
1. Inform Policy
2. Create the opposite of "historia" for a Positive future
3. Start thinking of the big Picture } "Astronauts"

PLANET → LIVING → ECONOMY

CURRENCY IS PLANET = WOOD IS THE MORE RARE MATERIAL → WHY Oi changes the possibilities of regenerative sources. To sum up Oi.

- Tron Series : Tron, 2
- Back To The Future 1-3
- The OA : Netflix
- Artificial Intelligence
- Walle - e
- Total Recall
- Minority Report
- The Time Machine
- Elysium
- Ender's Game
- Treasure Planet
- Passenger
- The 100
- The Giver
- The Host
- Divergent Series
- The Matrix
- Victoria and the city of 100 walls
- Tomorrowland
- City of Ember
- The Island
- Demolition Man
- Matrix
- Water World
- 2012
- Brave New World : Tech
- Oblivion
- Truman Show
- Star Trek Nemesis
- Marvel : Multiple
- Terminator All of em
- Ready Player One
- Free Guy
- Hunger Games 1-3.5
- Arcan Flux
- V for Vendetta
- Robo Cop
- Watchmen
- Star Wars
- Logan
- Interstellar
- Handmaid's Tale TV
- Snow Piercer
- District 9
- X men
- Planet of Apes
- World Wars
- The Purge

As Cormac Said, "Paraphrasing here, we are in the middle of a problem that already exploded, work together for earth for us. Fortresses would only get us as far.

We ARE IN A WAR WORLD 3. NO NUKES

2030s WAR STARTED AND ENDED US. A super power left as a nation divided but stronger East & West stronger US North & South. times are changing and so will borders ecological urban landscapes, change of climates more drastic more extreme, Adaptable Architecture is a need for 4 seasons. If life a cycle when do Baby boomers come in!! AGAIN!? — will tech intervine.

2040's 2042 → This is possible but early stages → 125 years 2226. Into far will we go → here the full symbiosis but then Do we Remain Human?

SPECULATION → WHY? WHO AM I?

EXPERENTIAL DESIGNER, FUTURIST. A MAP, STORY, OBJECT, PLAN

STEEP!

Social deep, which stands for social and it can be anything from consumer behavior, culture of demographics, religion, lifestyle, value media health it could be technological so you can incorporate different aspect of innovations in communications in energy, transportation biotech you can also incorporate the economic aspect of this employment, startup, bankruptcy, recession, trading taxes, and other types of financial and economic output. You can also think about this of the environmental impact consequences so extinctions climate change s, and lastly, about the political implications. Wars regulations

THE DEVICE THAT QUESTIONS THE BELONGING in a MORE-THAN HUMAN CITY! IS THERE URBAN CO-EXISTANCE.??

SENTIENT CITY
INDIGENEOUS WAYS
MORE THAN HUMAN
SPECULATION

"ARTIFACT IS A PROP FOR THINKING"

HOW IT STARTED....

THE SHATTERED LENS

TAKE A SNAP/SEE IT THROUGH THE OTHER

+"X" amount of years
HOW MANY → PASS TO THE NEW "MODEL"
THE PROGRESS → THE SPECULATION CONTINUES

MORE YEARS IN THE FUTURE

NEW DEVICE?

WHAT NEXT?

not looking outwards but inwards...

THE NEXT VERSION V.3000, same as before BUT. THIS TIME IS NOT EYE WARE BUT A DISH. A "PORTAL" WITH THE MEDIA BEING DISTORTED URBAN LANDSCAPE [BIRDS VIEW]...

66 years to get here

125+ years

WHERE IS THIS DEVICE going

KEY:
[Statistic of Human & animal population density]
[key animals & fauna of examples] → THE POV of these

THE Eye-View: A DEVICE THAT FOLLOWS THE SAME PURPOSE AS THE "MULTI LENSE" ONLY +50 YEARS LATER OR +25 years: [its hard to speculate WHEN MEASURING THE TANGIBLE → POSSIBLE]

LET PEOPLE "DANCE" BETWEEN DESIGN FICTION & POSSIBLE, CREATING A DEVICE THAT CAN SEE OTHER LIVING ORGANISM POV is NOT POSSIBLE YET!!

THE CONCEPT IS TO CREATE EYE WEAR THAT WORKS LIKE BINOCULARS BUT ACT AS A KALEIDOSCOPE WITH 2 CHAMBERS THAT ALLOW FOR 2 SETS OF △ OR □ OR ○. WHEN THE USER POINTS TO OUTDOOR LOCATIONS IDEALLY PUBLIC OR URBAN SPACES TO SEE THE MIX OR CONTRAST IDEALLY EVOKING THOSE EMOTIONS THAT PUT THE USER OUTSIDE THEIR PERSPECTIVE SOMEWHAT FORCING THEM TO THINK OF THEIR & OTHERS POV.

WHEN LOOKING AT THE FINAL SHOW THE STORY I WANT TO TELL IS STILL BEING BUILD. A STORY LINE GOES INTO CONTRACTING WITH THE TIMELINE AND BASE ✱ CONCEPT

1867 1st START → 2026 66y PAST → 2092 PRESENT 175 YEARS +7 GEN → 2291 125 AUTURE 2217 or 2226

225 years +10 GEN

THE TIMELINE ALLOWS US TO HAVE THE REALM OF SPECULATION BE POSSIBLE BUT ALSO ROOTED WITH INTENTION & CAUSE. GIVING & ADDING IMPORTANCE

SPECULATING WITH THE [10TH] WHY THE 10th The 7 generation teaching thought me to to keep in mind 3 generations ahead the son of my son to their son your grand childs' child

THE STORY WILL MAKE IT BE AS IF IT WERE THE YEAR 2092
A SPECULATION ON SPECULATION THE WIDE BOOK IS AS IF IT WERE THE YEAR 2092 LOOKING FORWARD 2217 (2167) (125) 300 years of CANADA
LOOKING AT THE PAST 75 years and into the next 75
LEAVING US IN THE MIDDLE LOOKING 3 GEN FORWARD.
A FORMULA OF: PAST GEN + CURRENT + NEXT GENERATION (3) = 7th GENERATION

LANGUAGES?

WILL THE HUMAN HAVE TO LEARN AGENT LANG. LINGUISTICS TO MECHANICAL TECH JSON.

JSON THE LOST LANGUAGE OF AI: with the rise of ai agent McMaster Student with collab Sheridan Grand Orlowan University have started to enhance language learning to understand complex languages created by AI with efforts to increase Data Centers and Consumption created by AI.

FAST FOLWARD

NO LONGER MISS A BEAT FROM YOUR BOT, FASTER EASIER COMMUNICATION WITH YOUR DEVICES.

IF WE ALREADY SEE THE RISE OF BOTS IN-HOME FOR CHORES YOUR BOT WOULD COMMUNICATE WITH YOUR DEVICES THRU THEIR OWN LANGUAGE AI IS TOO SMART!!

BIO EVENTS WOULD BE THE CREATION OF Ai, the organic sentient tech or organic tissue multi use purpose and rigerous process, ALLOW THE HUMAN TO BE IN CONTROL OR ADD LAYER OF SECURITY TO ULTRA ADVANCE TECH. OPENING THE DOOR TO ADVANCED AND CREATE A NEW EVOLUTION OF TECH a new AGE. 200 years in the future is a lot!! of time

Im positioning the spectator 66 years in it

TERRAFORMING • LIVING ARCHITECTURE • SENTIENT TECH
3D PRINTING • INDIGENEOUS PRACTICES • MORE THAN HUMAN

URBAN LANDSCAPE 2226

2092 IS HOW WE almost there

125 years... :) Timeline time

MEGA TRAM MONO MAGNETIC RAIL

WAY: WASN'T LONG UNTIL ANOTHER HURRICANE JUST AS IN 18-196... GO TRANSIT & VIA RAIL HAD SAME LOST IN ROAD ALL ACROSS nation. The China Canada Union Trade #30, Revamp the whole System. Started to produce more than just wagons → 2226 the wagon constructed its own path... technology is leading us closer to printable roads
- not intrusive
- decomposes, rebuilt and reuse.
- Appears only when needed

2092 THE ~~FASTEST~~ WIND ~~S~~ STREAM TO STREAM: BRIDGES OVER WATER AIR CRAFT REGULATED, THE FASTEST CONNECTION THRU THE MEGA

SO MUCH TRAFFIC

WHAT OR PUBLIC TRANSIT OR TRANSFER

made of a 2017 Fighter

CAR POWER FULL ENOUGH FOR → LIFT DRAG

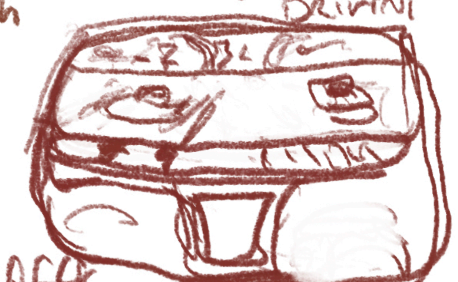

SAFER THAN EVER

PLANES NO LONGER SAFE?

LITTLE AD TO INVITE STORY TELLING

MACHINE LEARNING HAS ADVANCED SO GREATLY THE CASUALTIES ARE AS RARE AS MUMMIES. SYSTEM SO ADVANCED TO OPTIMIZE EVERY ASPECT THERE IS PUBLIC. CARS & DRIVING

WORRY FREE DRIVING

- TRAFFIC LIGHT
- TYPES OF TRAFFIC
- DIRECTION OF TRAFFIC
- DIMENSION PLANE OF TRAFFIC

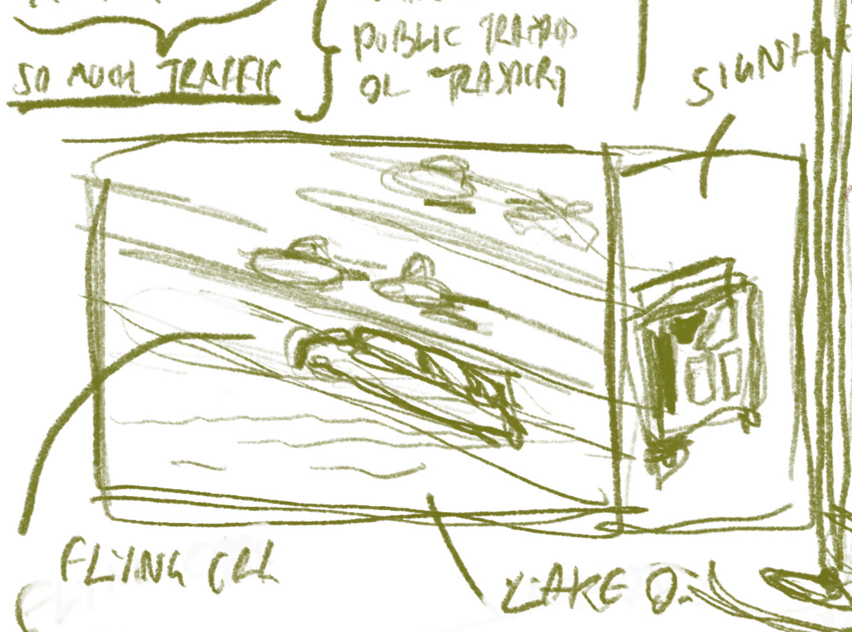

→ FLOATING SIGN SHOWS

WAY FINDING OPPORTUNITY

① ACTIVE LANES
② MAIN BRIDGE SIGN
③ SHARE SPACE SIGN

TRAFFIC

④ PARK SIGN
⑤ GO TRANSIT
⑥ INFORMATION
⑦ DIRECTIONAL (FLOATING*)
⑧ AR → HOW IT LOOK THROUGH DEVICES IN CAR

Research Questions
Aims & Objectives
expected Final Deliverables

key elements of progress

10 MIN

- 4 MECHANICAL SEMI FUNCTIONAL PROTOTYPES TO TOUCH & USE
  - ORENDA CAL VLOG
  - MULTI EYE
  - ORGOBOT (small)
  - TRASN PORT HUB
    - PLAZA (SHRA SPACE LAUNA
  - VIDEO STORY INTRO
  - TIMELINE GRAPHICS INFO GR
  - GUIDED BOOK SUPPORTIN/ENHANCEIN THE STORY AND WORLD BUILDING PROJECTS
